

## You Can Help

Every life is sacred. The place a child is born shouldn't determine if they live or die.

### *Be the Change You want to see in the world!*

- **Drill a well:** \$4,800 gives a village a life-time of safe water. This is thousands less than is often charged.
- **Build a Washroom:** \$3,800 allows school girls to toilet with dignity
- **Replace a Handpump:** \$1,500 allows a broken well to become usable again
- **Host a Hygiene Workshop:** \$500 teaches villagers how to keep their families healthy & treat running stomach

### ***Change Lives, One Cup at a Time!***

- Donate on-line at [www.lifewater.ca](http://www.lifewater.ca)
- Send a cheque to "Lifewater Canada"

*Privacy Policy: We don't ever sell or share contact information with anyone*

**M**Meet Amina, a young mother living in Nigeria. Each day, she rises early to rush to the distant water hole before the animals muddy the water. With the heavy 5-gallon pail on her head, she treks back to the hut — the first of 3 trips completed. Amina's drinking water is often contaminated with cholera, typhoid or other water-borne diseases which bring her family sickness.

**U**ntil donors like you worked through Lifewater to drill a new well in her village! Life has changed for Amina—Her daughter is getting the same chance at education as boys and her family is healthy. But countless women & girls need your help to bring safe drinking water, hope & health to their villages.

## Lifewater Canada

Helping rural poor in Africa & Haiti obtain safe water, sanitation and hygiene training

## Who We Are

Lifewater's mission is to help people in Haiti & Africa drill wells and build washrooms. Because we are powered by volunteers working from home, **overhead is just 7%**

Charity Intelligence ranks Lifewater as one of Canada's top-10 charities based on the difference we really make in people's lives.

Your gifts are invested in cost-effective compassion: **\$1 gives a child safe water for a year!** Donations are tracked directly to specific projects that are posted on-line.

Lifewater has drilled wells since 1997, providing safe water for 1 million people!

## The Problem

**One-sixth** of the people on earth do not have safe drinking water and **two-fifths** lack access to improved sanitation

**80%** of sickness and death among children is caused by unsafe water.

Every 20 seconds, a child dies from poor sanitation & unsafe water.

Women & children spend **200 million** hours every day hauling water!

Hauling water before & after school puts girls at risk of rape and leaves them with less time & energy than boys to do well in school

## Our Solution

**Skilled** volunteers empower local people by training & equipping them with drill rigs & other equipment.

**Local** workers drill wells at schools, churches, clinics, orphanages & grass-hut villages

**Communities** work on projects and maintain them in the future.

**Donors** make projects affordable to those in need. The result is less money spent on medicine and increased opportunities for women & girls.
